

Crispy Pork & Peking Duck Eco Roaster Oven

Introduction

A versatile and reliable roaster featuring an innovative design which enables easier maintenance and a faster, more energy efficient way of cooking Crispy Pork and Peking Duck to an excellent standard.

Main Features

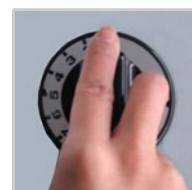

Powerful, efficient and reliable

Fast heat recovery with thermostat controls reaching up to 310°C within 3 minutes. Two standard size servings ready in 45 minutes. Max. roast of 12 ducks, 6 crispy belly or whole suckling pork.

Stainless steel twin bar burner to maintain reliability and constant power for roasting (gas only).

Uniquely designed centre cone heater diffuser to ensure even heat distribution and protect fat blocking the burner, also giving a crispy roasting and BBQ flavour to cooked meat (gas only).

Higher roasting temperature for crispy pork requires an attachment provided free of charge.

Safety devices and monitoring features

Safety flame failure device and water dried overheat protection device.

Exterior case is insulated with 50 mm of high density fire-rated high thermo-insulation material to maintain a temperature below 65°C.

Easy to clean, maintain and assemble

Constructed with high quality gauge stainless steel for easy cleaning and maintenance.

Rotating hanging ring with bayonet quick release coupler for easy cleaning.

Water well grease drip tray with overflow fat catchments drawer to the bottom right and complete drain of drawer to the bottom left.

Easily dismantle and re-assemble to go through a narrow doorway less than 600mm wide.

Model	Dimensions (W x D x H)	Roast Capacity	kW Rating	List Price
DO-75 NG/LP	750 x 850 x 1750	8-10 Ducks	20 kW/h (NG) 18.5 kW/h (LPG)	£3,850.00
DO-90 NG/LP	900 x 900 x 1750	10-12 Ducks	20 kW/h (NG) 18.5 kW/h (LPG)	£4,550.00
DO-85 E	850 x 850 x 1750	8-10 Ducks	12 kW/h 1 phase or 3 phase	£5,775.00

DO75 requires a minimum of 760mm width across a door way and DO90 requires a minimum of 910mm.
