

ACK Commercial Water Flow Surface Induction Wok Range

Induction burners provide direct and rapid heating to enable minimum energy loss, for example heating in one second with the 5kW, 400V model.

Easy to operate and suitable for all styles of cooking that can overall be prepared quicker to deliver greater convenience and efficiency.

Safety features include a pan detection energy cut-off when the burner is not used and a temperature sensor monitor cut-off when overheating.

■ Main Features

- Water flow surface worktop for easy wash, wipe and clean
- Minimum maintenance cost by just cleaning air filter panels
- Does not require extra extraction power to extract CO and CO2
- Lever handle rotary control as standard
- Digital touch screen control option
- Induction generators and coils manufactured by EGO Germany
- Pre-wired 415V, 3 phase, 5 pin 32A commando plug
- 5kW curved wok burner, ample room for normal stir fry cooking
- Splash back panel with spice shelf and under shelf
- Uses standard 13" ACK 'King' wok pan or induction wok pan
- Option to fit 14" and 18" wok pan on request at extra cost
- Delivery Time is 5 to 7 weeks from confirmation of order
